ANKITHA S N

Chickballapur, Karnataka | +91 9901757500 | ankithasn22@gmail.com | LinkedIn: ankithasn | GitHub: ankithasngit

PROFESSIONAL SUMMARY

Detail-oriented Computer Science undergraduate (B.E., 8.46 CGPA) with hands-on experience building applications across cybersecurity, desktop systems, and applied AI/ML. Skilled in Java, Python, and relational database design, with a track record of translating coursework and self-directed projects into working software. Seeking an entry-level Software Engineer / Developer role to apply strong problem-solving skills and a passion for continuous learning to deliver reliable, impactful solutions.

EDUCATION

SJC Institute of Technology, Chickballapur, Karnataka 2023 – 2027
Visvesvaraya Technological University , Belagavi
B.E. in Computer Science | CGPA: 8.46

B G S PU College, Chickballapur , Karnataka 2023
PCMCs – PU Board | (Class XII): 77.6%

New Horizon English School , Chickballapur, Karnataka 2021
Karnataka State Board | (Class X): 81.6%

TECHNICAL SKILLS

- **Languages & Concepts:** C, C++, Java, Python, HTML, CSS, JavaScript, SQL & Relational Database Management, Data Structures & Algorithms.
- **Tools & Platforms:** Code::Blocks, Eclipse, IntelliJ IDEA, Jupyter Notebook, NetBeans, Figma, Canva.
- **Domains:** Cybersecurity & Intrusion Detection, Core Java , Backend Development.

ACADEMIC & APPLIED PROJECTS

Safe-Net — Next-Gen Intrusion Detection for Cyber Security

Java, Python, MySQL, Machine Learning, Network Security

- Built a next-generation intrusion detection system (IDS) to monitor and analyze network traffic in real time.
- Implemented anomaly-detection algorithms to identify cyber threats and unauthorized access, distinguishing normal from malicious behaviour.
- Optimized detection performance by reducing false positives and improving overall accuracy through a scalable monitoring architecture.

Hotel Management System

Java, Java Swing, Java AWT, MySQL, NetBeans

- Developed a full desktop application to manage hotel operations, including customer and employee records, room information, bookings, and checkout.
- Designed the MySQL schema and Swing/AWT interface to support end-to-end front-desk workflows.

Word2Vision

Python, PyTorch, Hugging Face Diffusers, Stable Diffusion 2.1, CUDA

- Built a text-to-image generation demo using Hugging Face Diffusers and PyTorch with Stable Diffusion.
- Optimized inference for GPU execution (CUDA, fp16) to deliver high-quality visuals from natural-language prompts.

INTERNSHIPS

Cybersecurity Internship *[June, 2026] – [July, 2026]*

[Happieloop], [Pune]

Here's your content condensed into three small points:

- **Technical Testing** – Password cracking, network scanning, vulnerability assessment, and web app penetration tests.
- **Human & Operational Security** – Phishing simulations, social engineering checks, configuration reviews, firewall audits, and encryption assessments.
- **Incident Response** – Scenario-based evaluation of communication and escalation procedures.

ACHIEVEMENTS & LEADERSHIP

- Ranked in the Top 25 out of all participating teams at Neo Codeathon.
- Member, Design Team — Des|X|ing Club, contributing to visual design and branding initiatives.
- Coordinator for the annual College Fest, managing logistics and cross-team coordination.
- Secured 2nd Place in a Debate Competition in college fest.
- Active participation in fine arts and secured various of prizes in college fests.

CERTIFICATIONS

- Programming in Java — NPTEL, IIT Kharagpur (Apr 2025)
- Database Management System — NPTEL, IIT Kharagpur (Sep 2025)
- Cloud Onboarding from SAP Cloud ERP (May 2026)
- CCNA Introduction to Networks from Cisco Network Academy
- CCNA Switching Routine from Cisco Network Academy
- CCNA Enterprises Network Cisco Network Academy
